ALICE #3

- 24 -

Alice threw him into a
small and stinky basement.

Footsteps of police officers
looking for her could be heard outside.

He did not say a word
and just stared at her.

He did not move, almost
as though he were dead.

I will do to you exactly what your fother did to my daughter.
I heord your body is sturdy
Let's see if you con withstand a beating

She stabbed him with no hesitation.

The blood dripped and wet her fingers.

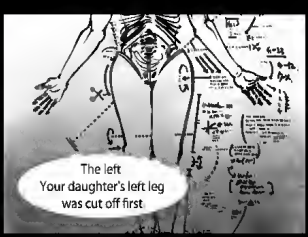
However, he did not make a sound as though he knew this was going to happen from the beginning. As though he knew everything.

You shouldn't taint your hands like this. Your daughter didn't want this
Shut up.
I'll let you experience the pain of getting your leg chopped off. Exactly how my daughter felt it. You'll feel how painful it was for my weak daughter!
Alice placed the knife on his right thigh.

The tip of the knife shook.
Her heart beat louder.

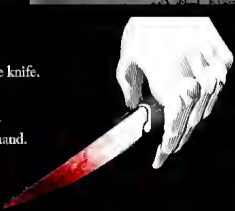
The moment
she was waiting for
was in front of her.

There is no one
to stop me now.



Alice held back the knife.

The strength
faded from her hand.



From the laboratory
where I was born, I found a video
of your daughter's experiment
I saw how your daughter died
My father cut the left leg first
And as she regained consciousness
he cut off the right

She felt a rush of
blood to her head.

He knew all along.
He's just been playing with me.
What was left of her sanity
transformed into rage.

(He remained silent)

AHHHH. Please let me live.
It hurts so much. AHHHH

Cough. Gag. Cough.

You seem to have regained consciousness.
I am honestly surprised. I thought
you would have died from the pain.

Where...Where am I?

Is that important?
Are you not interested in
the leg you're missing?

What in the world... No...
What did you do to my leg?!!

I cut it. As you can see.

Please... Please let me go.
Please don't do this.

Honestly, I was a little worried.
If one leg is longer than the other, it's hard to walk with.
I was wondering if I got the right sample. Anyway,
your legs are very well developed. I'm satisfied.

AHH... NO, NO!!!

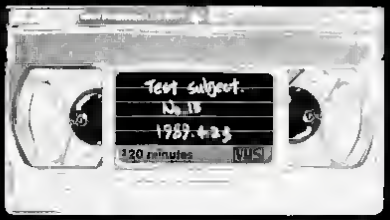
Bear with it a little bit.
It won't hurt as much as your left.

AHHHHH! Please let me live.
Please help me. I'll do whatever you ask.
AHHH! NO! AHHH!

With an expressionless face,
he spat out words like a machine.

Alice felt her mind go blank.

The only thing in her mind
was to hold onto the knife tightly.



(Play)

Wow. You're still alive.
This is beyond my expectations.

Cough... Cough...
Son of a bitch. Burn in hell.

A dirty mouth you have there.
I thought you were just a nice girl,
but I'm being surprised in different ways.

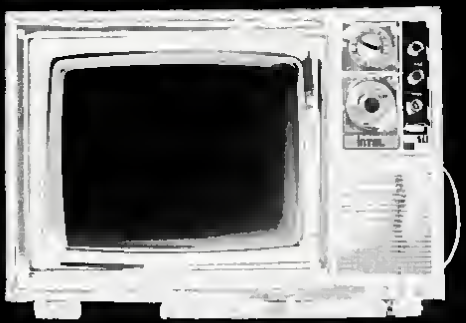
... Is this being recorded?

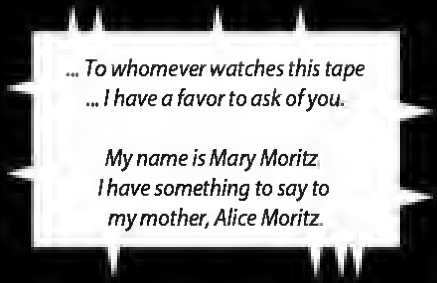
Of course.
Records in science are important.

Yeah... So that means someone will come across this tape.

I don't know what you're planning, but you can't escape. You have no legs.

I'm not trying to escape





... To whomever watches this tape
... I have a favor to ask of you.
My name is Mary Moritz.
I have something to say to
my mother, Alice Moritz.

(Pause)

To be continued...
